ascension®

ACCESSIBILITY MADE BEAUTIFUL

Portable and fixed ADA-compliant wheelchair lift solutions designed for commercial, residential, and event spaces.

Standard features to enhance the lift functionality and your convenience:

- The design of the **pit-less, ramp-less, and tower-less** (excluding the Clarity model) makes installation and maintenance hassle-free.
- Offer a minimally obstructed view, allowing occupants to enjoy their surroundings without compromising safety.
- It is weather-resistant, extending durability and functionality in various outdoor conditions.
- Operates on a 120V power requirement with a maximum power draw of 15A, ensuring compatibility with standard electrical systems.
- Engineering tech support, ensuring reliable performance and ease of usage.
- Incorporates a vibration-isolated power unit, minimizing noise and vibrations during operation.

Options Available:

- Custom colors
- Custom window panels
- Two-way communication
- Key switch operation
- Automatic power door operators
- Emergency lighting
- Outdoor packages
- 230VAC configuration
