PINNACLE SL300 STRAIGHT STAIRLIFT

BRINGING YOU PEACE OF MIND

DIFFERENT BY DESIGN

Designed to help people with mobility challenges safely and independently navigate stairs, the Pinnacle stairlift combines thoughtful design, reliable performance, and everyday comfort. Its innovative, patented drive system delivers a smooth, dependable ride while supporting greater mobility and access throughout the home.

- Clean Operation – Pinnacle technology means no grease or lubrication. Cleaner for you, your home, or even pets.
- Efficient motor with nylon polymer gear/worm drive provides as many as up to 60 cycles on batteries during a power outage.
- Symmetrical design provides industry's most compact folded width. The rail mounts 1 in. from the wall and is 3 in. tall helping to stay out of sight.

INTENDED USER

Harmar stairlifts are designed primarily for people whose permanent or chronic physical impairments substantially limit walking or safely negotiating stairs. Product features support users with mobility, balance, strength, dexterity, and transfer limitations.

CLEAR WALKWAYS

Designed with safe, independent mobility in mind, Harmar's optional automatic and mechanical folding rail removes obstructions and potential trip hazards from the lower landing area when the stairlift is not in use. Automatic operation allows users with limited mobility to use the folding rail without stopping or relying on someone else for assistance. And because the system operates mechanically, there are no additional switches or controls to manage.

DESIGNED WITH YOU IN MIND

My Pinnacle gives me the confidence to go up and down my stairs safely. It operates smoothly and is very quiet. I feel comfortable in my own home and less dependent upon others. My children have peace of mind knowing I am safer with my Pinnacle.

SL300 PRODUCT SPECIFICATIONS

WEIGHT CAPACITY	- 300 lb
TRACK LENGTH	- 15 ft 6 in. to 36 ft
SEAT SIZE	- 16 ½ in. x 15 in.
FOLDED WIDTH	- 11 in. from wall - 13 ⅝ in. with folding rail
SAFETY FEATURES	- Seat belt - Overspeed brake - Audible alert system - 85° manual swivel seat with interlock - Footrest obstruction sensor
OPTIONS	- Automatic folding rail - Chassis obstruction sensor - Extra rail + brackets - Key lock - Manual lowering tool - Retractable seatbelt
