KEYSTONE ACCESSIBILITY

FOR SENIOR CENTERS, CHURCHES AND COMMUNITY GROUPS

For members who want to stay safely in the home they love.

Please share this sheet with members and families who are finding stairs or entry steps harder at home. Keystone Accessibility installs **stairlifts, curved stairlifts, ramps, home elevators and platform lifts** for homeowners in central Pennsylvania.

What we install

Stairlifts
New and used

Curved stairlifts
Custom-fit rails

Ramps
Modular ramps

Home elevators
Shaftless options

Platform lifts
Vertical and inclined

How a referral helps your members

- A free in-home visit, with no charge and no pressure.
- New and used stairlift options to fit different budgets.
- Friendly, plain answers and an honest recommendation.
- A local, owner-operated company founded by Darrell Foster.

Three easy ways to get a stairlift quote

1. **Your member does it from home**
   With our mobile stairlift quote link, your member sends photos and measurements from their own phone and gets a stairlift quote within 24 hours.
2. **You take the photos**
   You or your staff, already in the home, take photos and measurements with a phone and a tape measure in about 5 minutes. We send a stairlift quote within 24 hours.
3. **Free in-home consultation**
   Prefer a visit, or need something other than a stairlift? Email info@keystoneaccessibility.com to set up a free, no-pressure in-home consultation.

Fast, photo-based stairlift quote from your phone
