KEYSTONE ACCESSIBILITY

FOR ELDER LAW ATTORNEYS AND REALTORS

Helping your clients make a home work for the years ahead.

When a client is planning to age in place, or wants a home that is easier to get around, Keystone Accessibility can help. We install **stairlifts, curved stairlifts, ramps, home elevators and platform lifts** for homeowners in central Pennsylvania.

What we install

Stairlifts
New and used

Curved stairlifts
Custom-fit rails

Ramps
Modular ramps

Home elevators
Shaftless options

Platform lifts
Vertical and inclined

How a referral helps your clients

- A real price upfront, so clients can plan with clear options.
- Measurements and an honest recommendation.
- Shaftless elevators fit existing space without major structural changes.
- No pressure, ever.

Three easy ways to get a stairlift quote

1. **Your client does it from home**
   With our mobile stairlift quote link, your client sends photos and measurements from their own phone and gets a stairlift quote within 24 hours.
2. **You take the photos**
   You or your team, already in the home, take photos and measurements with a phone and a tape measure in about 5 minutes. We send a stairlift quote within 24 hours.
3. **Free in-home consultation**
   Prefer a visit, or need something other than a stairlift? Email info@keystoneaccessibility.com to set up a free, no-pressure in-home consultation.

Fast, photo-based stairlift quote from your phone
