KEYSTONE ACCESSIBILITY

FOR THERAPISTS AND AGING ADVISORS

When stairs or steps get in the way, your clients have options.

When a client wants to keep living safely and comfortably at home, Keystone Accessibility can help. We install **stairlifts, curved stairlifts, ramps, home elevators and platform lifts** for homeowners in central Pennsylvania.

What we install

Stairlifts
New and used

Curved stairlifts
Custom-fit rails

Ramps
Modular ramps

Home elevators
Shaftless options

Platform lifts
Vertical and inclined

How a referral helps your clients

- Options for stairs, entry steps and moving between floors.
- Solutions that support independence and safety at home.
- Measurements and an honest recommendation.
- Clients and families know what they are looking at before they commit.

Three easy ways to get a stairlift quote

1. **You take the photos**
   You or your staff, already in the home, take photos and measurements with a phone and a tape measure in about 5 minutes. We send a stairlift quote within 24 hours.
2. **Your client does it from home**
   With our mobile stairlift quote link, your client sends photos and measurements from their own phone and gets a stairlift quote within 24 hours.
3. **Free in-home consultation**
   Prefer a visit, or need something other than a stairlift? Email info@keystoneaccessibility.com to set up a free, no-pressure in-home consultation.

Fast, photo-based stairlift quote from your phone
